SCARY POOLS FOR HALLOWEEN – 94

20 20 AWARDS OF EXCELLENCE ISSUE

20 20 AWARDS OF EXCELLENCE

On the most basic level, pools are made to hold water. To the builders and designers who breathe life into these projects, it's about so much more. Their craft spans all kinds of shapes, sizes, functions and climates — and these challenges just become creative fuel for great masterpieces. Like magic,

pools can be made to capture light, manipulate water, trick the eye and push the boundaries of what's expected.

Year after year, the PHTA Awards of Excellence recognizes the standout pool builds and designs from around the world. Take a dive into this gallery of the best of the best.
